Cable Management for Data Center

*Digital Engineered Fastening
Solutions*

IDEX

REQUIREMENTS FOR DATA CENTER CABLE MANAGEMENT PRODUCTS

Protection During Short Circuits & Faults: Secures cables against fault forces, reducing movement and damage.

High Quality & Reliable Performance: Engineered for durability and long-term dependability.

Fast, Easy Installation: Minimizes setup time, speeds up projects, and cuts costs.

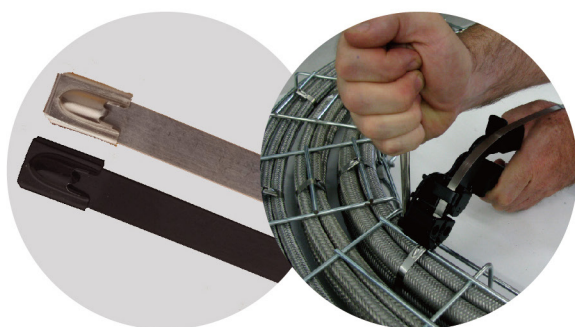

Flexible & Adjustable: Easily adapts to cables of different sizes for optimum efficiency.

BAND-IT CABLE MANAGEMENT SOLUTION

BAND-IT is a leading provider of versatile cable management solutions, committed to delivering innovative, reliable products for organizing and securing cables across various industries. Our comprehensive range includes fast, easy-to-install fastening, tagging, and labeling solutions designed to enhance efficiency, durability, and performance in diverse operational environments, especially in data centers.

- **Band-Fast:** IEC verified¹, pre-cut band with smoother edges that creates a safer and more efficient working environment with decreased installation labor.

- **Cable Tie:** Durable, reliable, easy install ties suitable for cable management to ensure secure and organized cable runs.

- **Cable Tag:** Versatile tagging solutions for easy identification and management of individual cables and bundles, enhancing maintenance and troubleshooting processes.

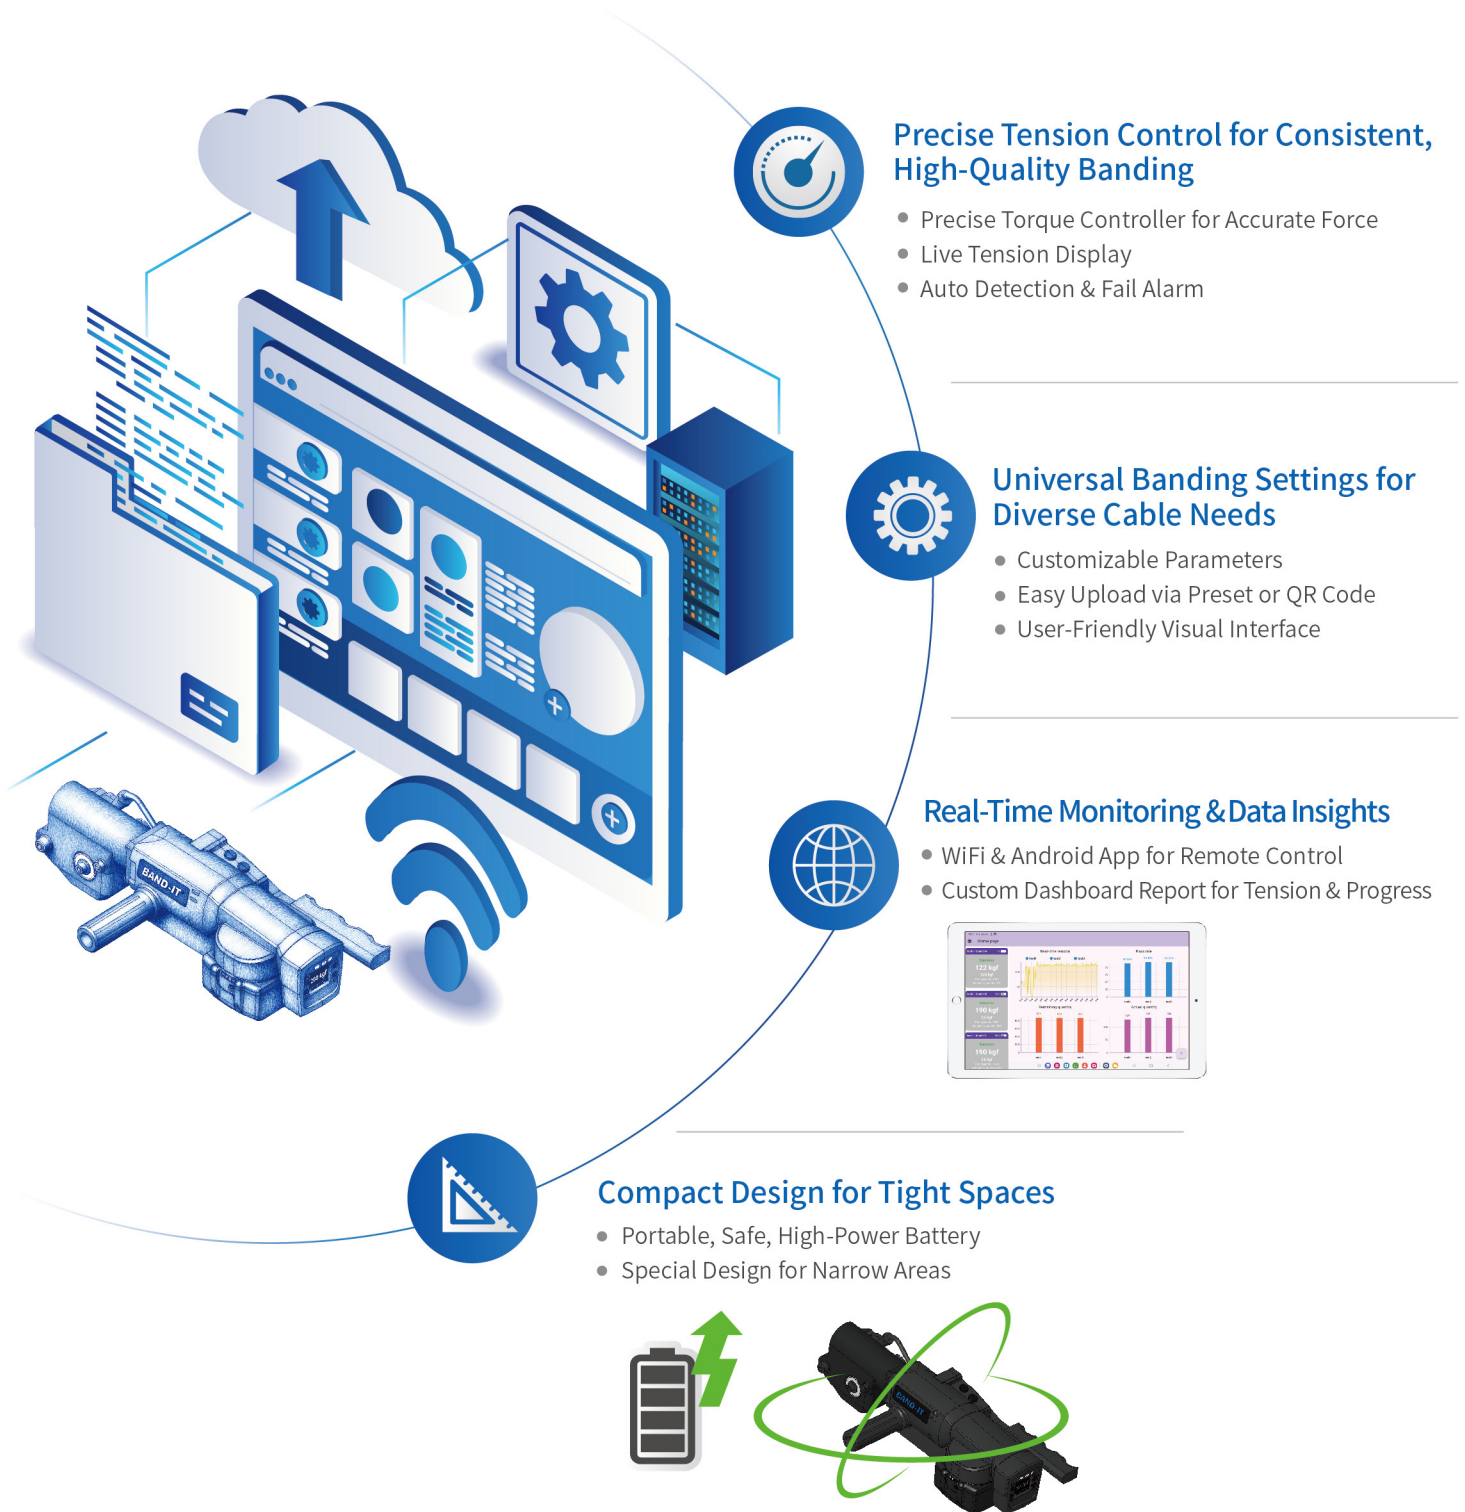

- **Easy Read:** Innovative letter and number solutions that provide clear, legible identification, enabling quick visual recognition in complex cable assemblies.

Note: 1. Compliance in accordance of IEC61914 ed. 2.0 2015-01, Clause 9.5; Test for resistance to electromechanical force.
